

Quest Q-tech QTC 1080 2-way Commercial Ceiling Speaker

The Quest Q-Tech series QTC 1080 ceiling speaker is a 5 tapping 15 watt 100/70V line 2-way speaker that is optimised for wide dispersion high intelligibility vocal coverage in commercial environments. An added bonus is EWIS compatibility with capacitor line monitoring and the speaker's light weight makes it an easily flush-mounted ceiling speaker in false or plaster ceilings or panels.

Main body in propylene material, steel grille colour white and connections via rear terminal strip.

Installation Environment

Indoor light weight ceiling speaker ideal for speech and music where wide dispersion and pronounced high frequency response is required.
